**No Need to Drive Dirty When Clean is this Easy!**

# Turn Car Wash Time into "Me Time"

STARTING  
AT  
\$25

## Why Planet Earth Doesn't Like Car Wash Facilities

- ✗ **Wasteful water use** – machine washes use ~100 gallons per wash.
- ✗ **High CO<sub>2</sub> emissions** – every trip adds pollution from driving, waiting, and idling.
- ✗ **Dirty machine emissions** – automated systems pump out CO<sub>2</sub> with every cycle.
- ✗ **Toxic runoff** – soaps and chemicals wash into storm drains, polluting rivers and streams.

## Why Yso Dirty is the **Smarter & Cleaner Choice**

- ✓ **Innovative Products & Process** – Wash & wax that provide you a better shine & protection.
- ✓ **Safe for Waterways** – Eco-friendly solutions, using little to no water, saving 100 gallons per wash.
- ✓ **Eliminate CO<sub>2</sub> Emissions** – We come to you, cutting vehicle & machine facility CO<sub>2</sub> emissions.
- ✓ **Skip Traffic and Lines** – More free time for what matters most; family, friends, or just you.
- ✓ **Support Local Wash Pros** – Powered by college students and entrepreneurs in your community.
